

Your task:

- As part of an experienced team of traders, you will take on responsibility for trading in Asian shares on international stock exchanges and with international brokers.
- You will be responsible for setting up the trading desk for Asian shares.
- You will actively follow what is happening on the markets nationally and internationally, develop your own trading ideas for primarily short-term trading strategies such as news trading and arbitrage, and take the responsibility for implementing these.
- Working within defined risk limits, you will take responsibility within your team for managing the portfolios.
- You are confident and professional in your use of the existing programs and workflows that support trading to manage risk and optimize profits.
- You provide ideas on how to optimize our programs and workflows that support trading and actively collaborate with our IT experts on the development process and in testing new systems.

You should have the following skills:

- You have a working knowledge of stock exchange trading and already have several years' (3–5 years) experience of trading in Asian shares.
- You are highly motivated and desire to operate in the exciting environment of the global stock exchange environment.
- One of your skills is to retain a good overview even under stress and time pressure.
- As the key interface, you are able to keep an eye on a large amount of information.
- You are very good with figures and are interested in a technically driven modern working environment.
- You are highly flexible and are happy to work either a day, late or night shift model.
- You are an enthusiastic team player and can quickly identify with a positive working environment.
- You have a good command of both spoken and written German and English.
